

# CHORUS SLEEP

## UI/UX Case Study

Chorus is an app that helps users sleep better by combining 15-minute relaxing audio sessions with short lessons and morning sleep logs. Our unique program will help you quiet your racing thoughts and get better rest.

[www.chorussleep.com](http://www.chorussleep.com)

## Project Overview

We started working with Y-combinator funded Chorus Meditation before it was converted into Chorus Sleep. We conceptualised the designs, improved the user journey and created UI UX for web and mobile apps both. Later we helped with coding the UI in React as well.

We are now closely working with their team to create newsletters and digital campaigns while analysing user behaviour to improve user experience.

## Features

## Style Guide

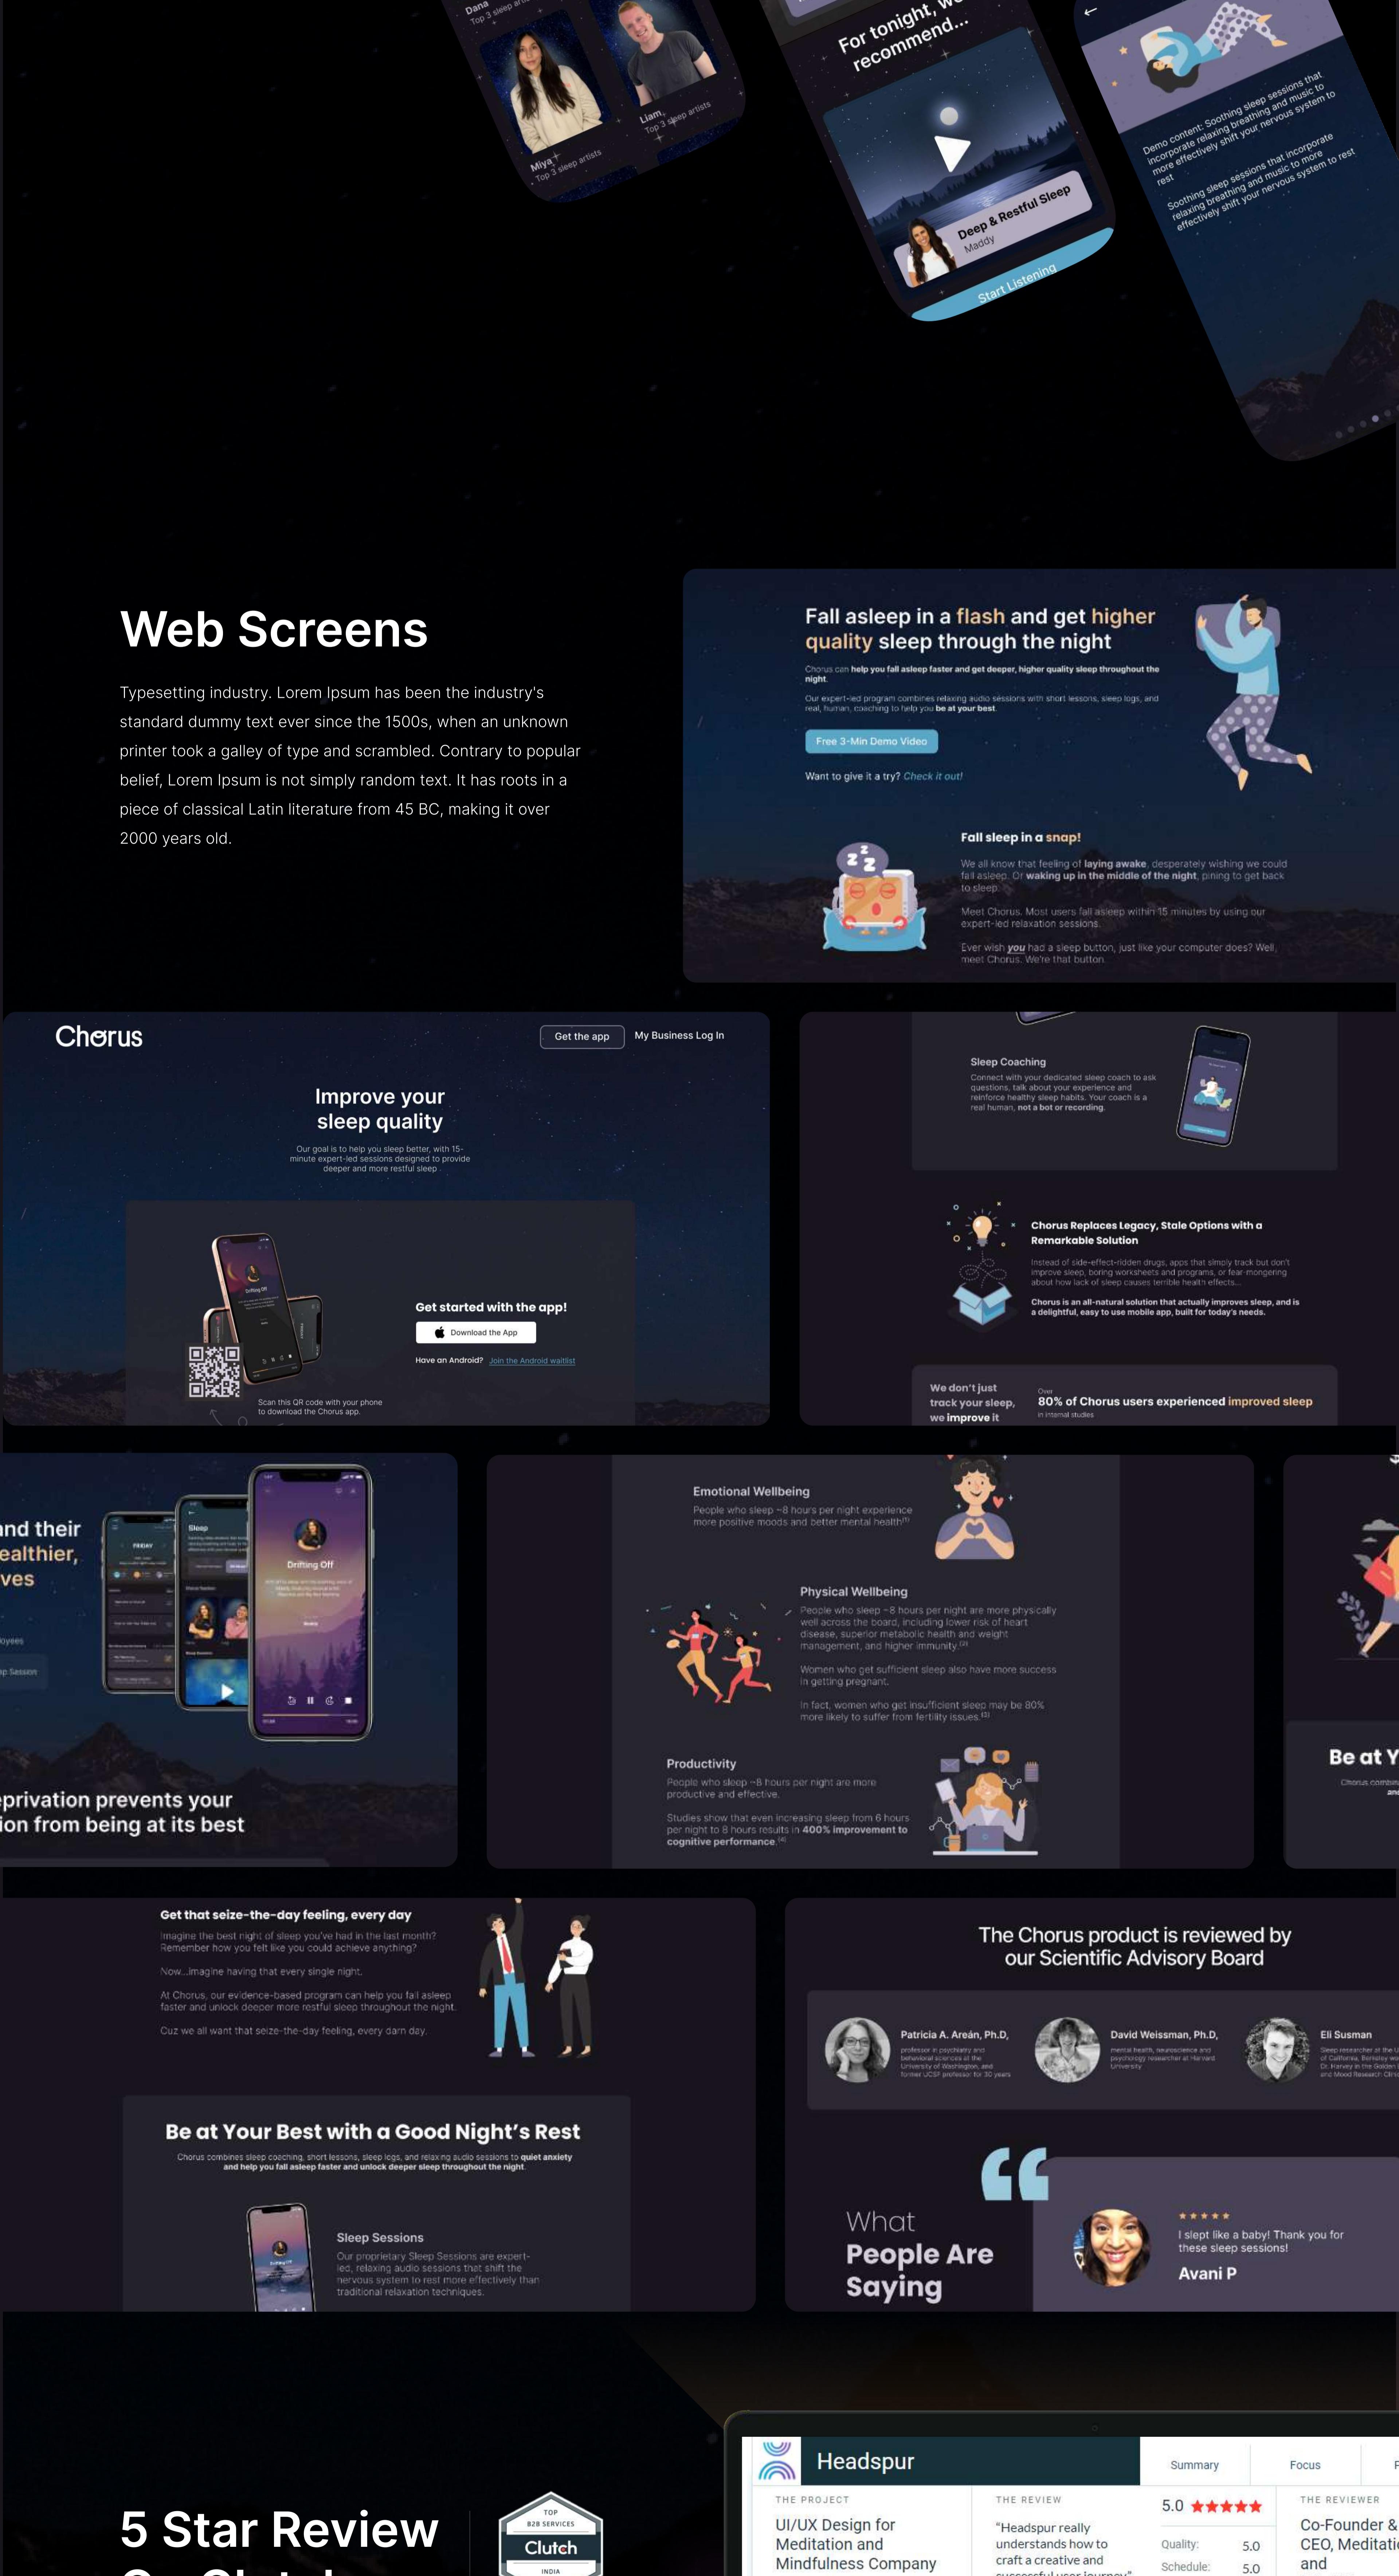

The implementation of a style guide is necessary for uniformity in style and formatting within a design and across multiple screens.

## Design Process

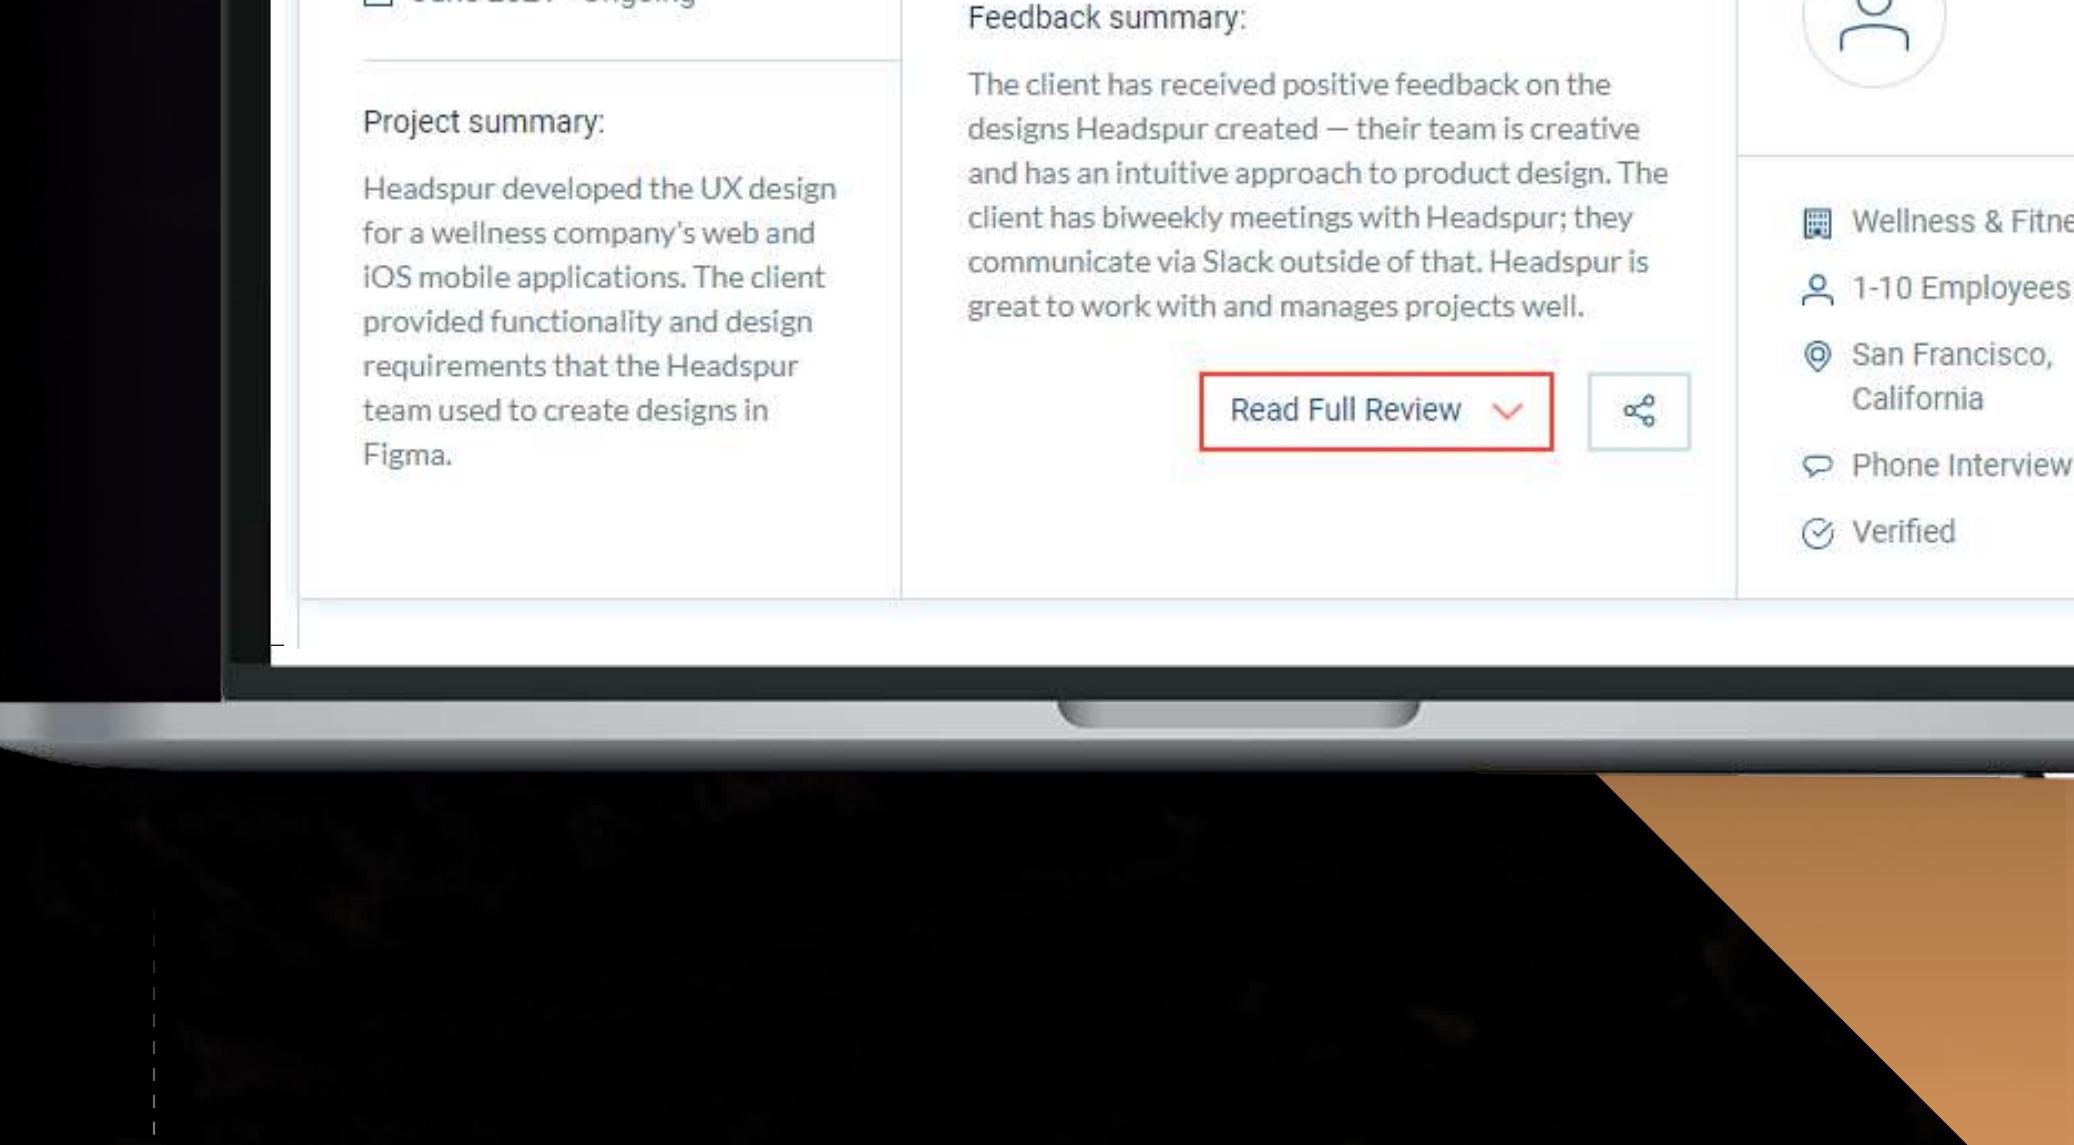

## Final Screens

Typeetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled.

## Web Screens

Typeetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled. Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old.

"The client has received positive feedback on the designs Headspur created — their team is creative and has an intuitive approach to product design. The client has biweekly meetings with Headspur; they communicate via Slack outside of that. Headspur is great to work with and manages projects well."

UI/UX Design

\$10,000 to \$49,999

June 2021 - Ongoing

Project summary:

Headspur developed the UX design for a wellness company's web and iOS mobile applications. The client provided functionality and design requirements that the Headspur team used to create designs in Figma.

THE REVIEW

"Headspur really understands how to craft a creative and successful user journey."
